### Benchmark Service Report

- Alameda County's solid waste management authority has released a new benchmark service that is intended to help residents achieve our community recycling goals. Alameda County households reduced the percentage of recyclable or compostable materials in their garbage carts from 60% to 42% between 2008 and 2012. Although this progress is laudable, more work remains to be done. The Benchmark Service will help in this endeavor by measuring and reporting progress made every year.
- The first Benchmark Service report was mailed in late January 2014, with future reports to be sent at least once per year. To fund the benchmark service, StopWaste is assessing an annual fee of \$1.81 on all residential and commercial garbage accounts in Alameda County, which became effective on July 1, 2013 and is included in waste hauling bills. Residents who wish to unsubscribe to the service should contact StopWaste at [www.stopwaste.org/Benchmark](http://www.stopwaste.org/Benchmark) or call (877) 786-7927. Requests to unsubscribe received after March 31, 2014 may not be approved.
